PROFESSIONAL PROFILE

Data Scientist with a strong technical foundation in machine learning, data engineering, and AI-driven solutions. Passionate about extracting insights from data to drive strategic decisions, specializing in **ETL processes, NLP, recommendation systems, data visualization, and cloud-based architectures**. Adept at working in **remote, agile environments (SCRUM)** and collaborating with multidisciplinary teams to deploy scalable data solutions.

- **Machine Learning & NLP:** Experience developing **LLM-based solutions**, classification models, and automation workflows using **LangChain, Gemini, and PyTorch**. **Data Engineering & ETL:** Expertise in **big data pipelines**, cloud services (**AWS, Google Cloud, BigQuery**), and database management (**SQL, NoSQL, Neo4j, MongoDB**).
- **Business-Oriented Data Science:** Proven ability to translate complex data into actionable insights using **Power BI, Tableau, and Streamlit dashboards**.
- **Technical Proficiency:** Python, SQL, Java, FastAPI, Docker, Git, Hadoop, Spark.
- **Soft Skills:** Leadership, adaptability, analytical thinking, and results-driven mindset.
- **English:** C2 (Proficient)

PROFESSIONAL EXPERIENCE

Software Factory AI - Data Scientist Intern

Apr. 2024 - Jun. 2024

- **Developed AI-driven workflow automation** for LibreChat, integrating NLP models for enhanced user interaction. Created a **dynamic classification system** to improve data retrieval and response accuracy in AI applications.
- Designed **scalable data processing pipelines** leveraging AWS Lambda and LangChain.
- **Tech Stack:** Python, LangChain, Gemini 2.0 Flash, YAML, AWS Lambda.

FEATURED PROJECTS

[“Google-Yelp”](#): Analysis of the Gastronomic Market in Tampa, Florida

Nov. 2024

- Built **ETL pipelines** integrating Google Maps and Yelp data for market trend analysis. Developed a **LLM-powered model** to assess restaurant performance and customer sentiment.
- Created **interactive dashboards** with Power BI for business decision-making.
- **Tech Stack:** Python, SQL, Google Cloud BigQuery, Streamlit, NLP, Power BI.

Data Scientist - [“VideoGameRecommender”](#)

Oct. 2024

- Implemented **cosine similarity-based recommendation algorithms** using Steam datasets. Performed **sentiment analysis** on user reviews with NLTK’s Vader model.

- Developed and deployed an **API service** using FastAPI.
- **Tech Stack:** Python, Pandas, NLTK, FastAPI, Render.

Data Analyst - “[SiniestrosViales](#)”

Oct. 2024 - Oct. 2024

- **Cleaned and normalized large-scale datasets** from government sources. Designed **dashboard visualizations** to analyze accident patterns and improve road safety recommendations.
- **Tech Stack:** Python, Power BI, Matplotlib, Seaborn.

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, JavaScript.
- **Machine Learning:** LangChain, LLM, NLP, PyTorch, Sklearn, MLOps.
- **Data Engineering:** Pandas, SQL (MySQL, BigQuery), NoSQL (MongoDB, Cassandra).
- **Cloud & Deployment:** AWS Lambda, Docker, Google Cloud, FastAPI.
- **Visualization:** Power BI, Tableau, Streamlit, Seaborn.

EDUCATION

- **Data Science – Henry Bootcamp** (2024) – 800 hours of hands-on training.
- **Associate Degree in Software Development – Universidad de La Punta** (2020 – 2022)
- **Bachelor’s Degree in Computer Science (Incomplete) – Universidad Nacional de San Juan** (2024)

ADDITIONAL CERTIFICATIONS

- Deep Learning with Keras – Udemy (2025)
- Artificial Intelligence in Health Care – Udemy (2025)
- Big Data Basics – Udemy (2024)
- SQL – Udemy (2021)

IDIOMAS

- **Spanish:** Native
- **English:** C1
